

WE THOUGHT YOU MIGHT LIKE TO KNOW...

WHEN AND WHERE TO ARRIVE- The closest major airport is Boise, Idaho. You may also fly into Hailey, Idaho or Salt Lake City, Utah. Plan to arrive at the designated trailhead by 9:00 am the day of your trip.

TRANSPORTATION TO STANLEY-From the airport, you may rent a car, take an air taxi, or van shuttle to Stanley.

LODGING BEFORE AND AFTER TRIP- Stanley has a variety of motels and cabins for your night before and night after your high mountain adventure. We would be happy to discuss your needs and make the reservation for you or get you a list of lodges and let you make your own reservation.

WEATHER- Mountain weather can be everything every day. come prepared for lows in the high 30s and highs in the high 80s. Layering is the answer to enjoying your time in the mountains.

FISHING- With so many lakes in the Sawtooth Wilderness and streams and rivers in the beautiful Middle Fork of the Salmon River in the Frank Church Wilderness, fishing is always available at our camping sites. Anyone over the age of 13 must have an Idaho fishing license. We will be happy to help you rent fishing equipment and tackle prior to your arrival as well as obtain a fishing license.

MEDICAL EMERGENCY-Each guide carries a first aid kit and is trained in first aide and CPR. Radios or cellular phone do not work in our wilderness, so if an emergency arose that needed additional medical help, one of the guides would ride out to get additional assistance. Getting a message to you, while you are on your trip is difficult, but possible if necessary. Stanley has a medical clinic with an excellent physician's assistant, community full of EMTs and an ambulance that can transport to Sun Valley. Life Flight also comes into our valley.

TIPS FOR GUIDES-If your guides do a great job for you, they really appreciate a tip. We suggest 10% of total trip cost divided among your guides.

ALCOHOL-Please plan to provide your own and keep it separate from your duffel. We will pack it in the food boxes when you arrive at the trail head. Please bring it in plastic bottles or boxes and plan for moderate use.

WILDLIFE-Some of the wildlife that you can expect to see while you are on your trip are deer, elk, an occasional Mountain sheep or moose. In the Sawtooth Wilderness, you will rarely see a Black bear. In the Frank Church Wilderness Black bear are more prevalent, but are not a problem. We also have small animals, such as ground squirrels, picas and a variety of birds.

BUGS-The later in the season you come, the less mosquitoes you will encounter. Early morning and just as the sun sets are the worst times. Plan to bring an insect repellent with you.

TOILET FACILITIES ON TRIP-Some of the lakes that we travel to do have outhouses. If they do not, we provide small shovels to dig a hole or we pack in a portable toilet, while we are at our base camp. This procedure is in compliance with the Wilderness Leave No Trace Regulations.

SLEEPING ARRANGEMENTS ON TRIP-We have 4-6 man tents and we normally put 2 people in each one. If you are a single on a trip, we are happy to provide you with your own tent. You are also welcome to sleep under the stars.

FOOD ON TRIP/SNACKS - We work hard at providing healthy meals and snacks for you while you are on the trip. Feel free to bring anything extra that you may want. We will discuss menu options and special requests with the group.

WILL I BE SORE FROM RIDING? - Unless you ride every day, you can expect to experience some soreness from riding. The trick is to get off and walk occasionally or ask your guide for a break.

DRINKING WATER - We camp beside a good spring at our base camps. We provide water filters and we do recommend that all water is filtered or boiled. Plan to have a water bottle for when you are away from the base camp.

BEARS AND SNAKES-Because of the terrain and elevation, we have no snakes in the high country and very few bears.

CLOTHING - Be sure and pay careful attention to our clothing list. The trick in the mountains is to layer your clothing, so that as the days grow warm and the evenings cool, you can add or subtract as needed. Be sure and bring good rain gear. The mountains are unpredictable and afternoon thundershowers are not uncommon.

CANCELLATION POLICY - We require a 40% deposit to confirm your reservation. Balance on the trip is due 45 days prior to arrival. The deposit is

non-refundable, but may be applied toward trips at a later date, not to exceed one year. If cancellation is necessary, the balance will be refunded up to 45 days before the trip starting date. If notice of cancellation is received 45 days or less before trip's starting date, no refunds can be made. We recommend travel/trip insurance.

ABOUT OUR AREA-The Sawtooth Wilderness lies in the high country of central Idaho, about an hour's drive from famous Sun Valley. This is a wilderness of spectacular beauty. The three hundred miles of trail lead you through glacial valleys, alpine meadows and snow fed streams. The Sawtooth Wilderness which is a part of the Sawtooth National Recreational Area offers a variety of outdoor activities. Ghost towns, whitewater float trips, mountain biking and hiking are just a few of the many things to do in the valley. Plan to come early or stay a few days after your trip to explore this beautiful and peaceful valley.

VACATION INSURANCE-We highly recommend that you purchase vacation/travel insurance. Life has a way of changing and unexpected events happen. Contact your personal insurance agent to secure insurance of this kind.
